

Welcome to the Quantico Marine Base, where the Quantico Orienteering Club was founded over 40 years ago. Run as fast as you like, but please drive observing the speed limits. To minimize traffic backups at the sentry gate you may want to arrive after noon.

Proceed directly from the sentry gate to the sign-in area using the map and directions below. As much as we might like to wander around this large base - don't. The only road that QOC participants are allowed to drive on is MCB-1 between the sentry gate and the registration area.
